

# UNIT 4 CLUSTER 3 SELECTION SUMMARIES

## The Fast and the Fuel-Efficient

**Genre:** News Feature

A group of West Philadelphia high school students work hard to build a fuel-efficient, eco-friendly car for the 2006 Tour de Sol competition. Their hard work eventually pays off when they win the competition.

## Teens Open Doors

**Genre:** Article

A group of compassionate high school students use their technological skills to help a disabled classmate. They develop and build a remote control device that the classmate can use to open her locker. The successful device may have broader applications.
